 5 pcs. Cableties.
 1 pcs. Installation guide.
 1 pcs. Owners manual.

Genuine parts required is not available from EL-PAS.

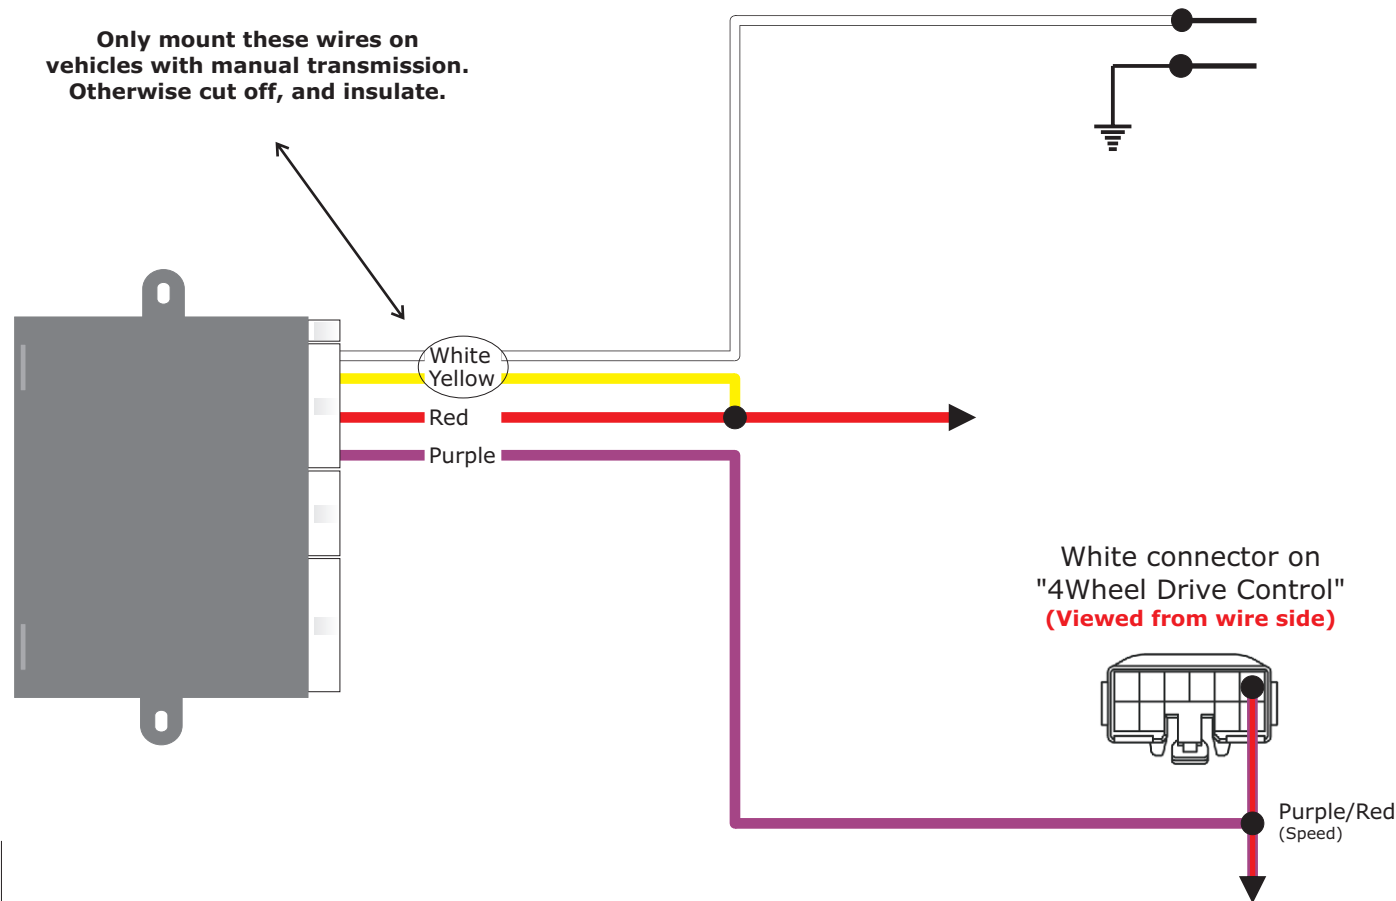

1 pcs. 84632-34011 Switch
 1 pcs. 84633-48020 Wire.
 1 pcs. 45186-58020-C0 Cover for Model 2009 - 2011
 1 pcs. 45186-33070-B0 Cover for Model 2011 >

Some good advice.

- Always disconnect the negativ cable from the battery, before installing.
- Always use the enclosed installation instruction for installing the E-Cruise.
- The rev. number on the unitlabel and the installation guide must be the same.
- Be aware that eg. radio code might has to be typed in.
- Find a location to install the unit and control switch.
- If any wire(s) left, then cut off and insulate.
- Only use multimeter to measure.
- Always drive the car for a complete test, before assemble the car.
- Flying lead(s) must be soldered.
- All wire connections are viewed from wire side.

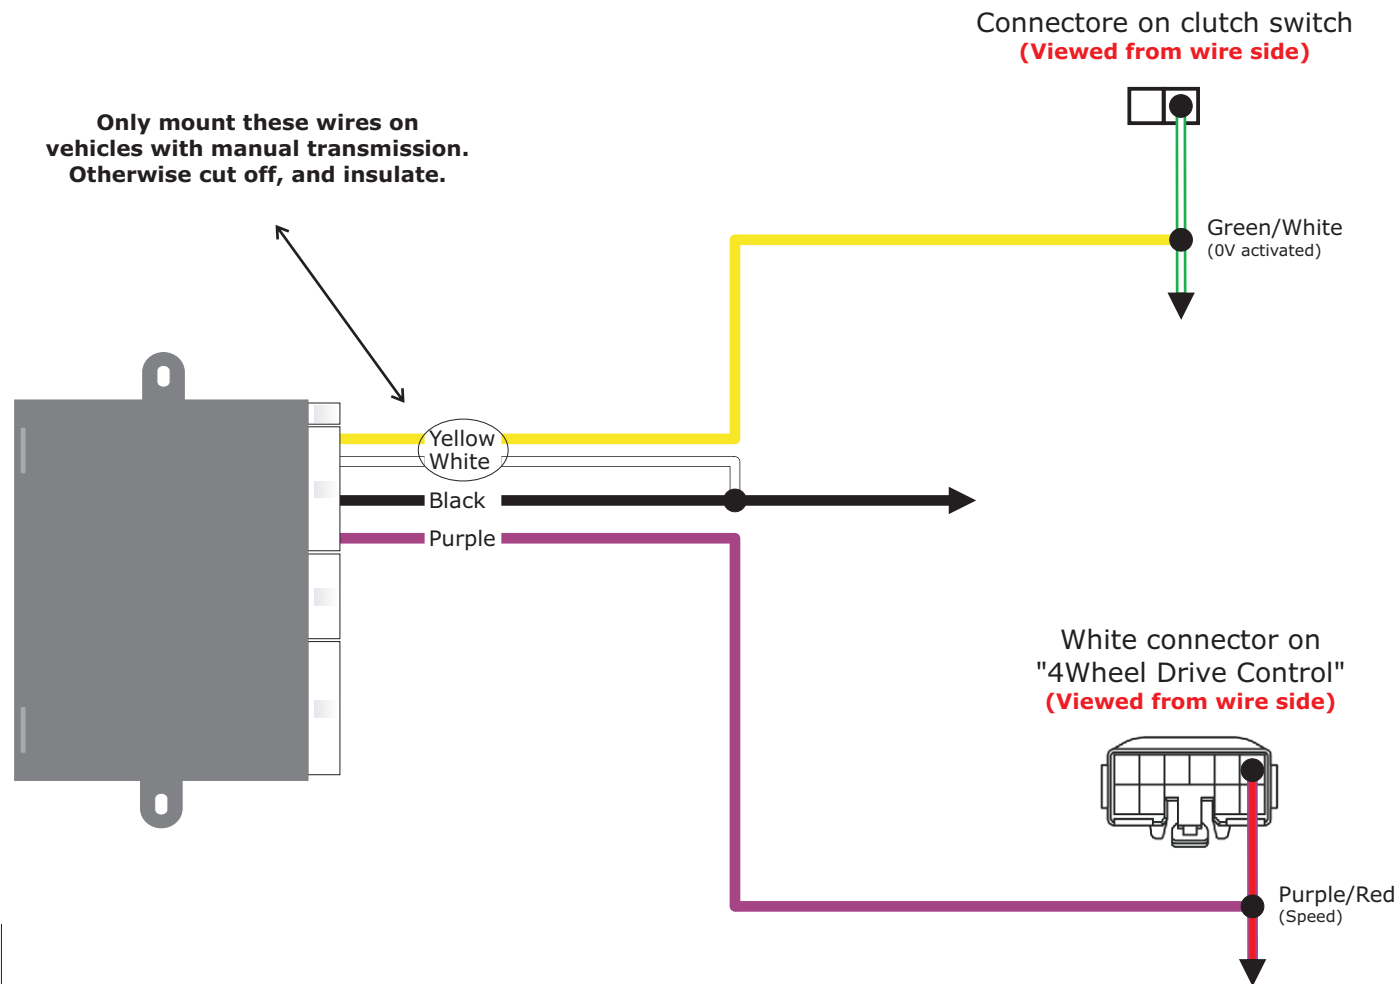

Use this solution if the vehicle is not equipped with a original clutch switch

The Pedal stop is measured and replaced by the enclosed clutch switch. The clutch switch must be placed on the same level as the pedal stop

Use this solution if the vehicle is equipped with a original clutch switch

Disconnect the airbag in the manner described by TOYOTA.

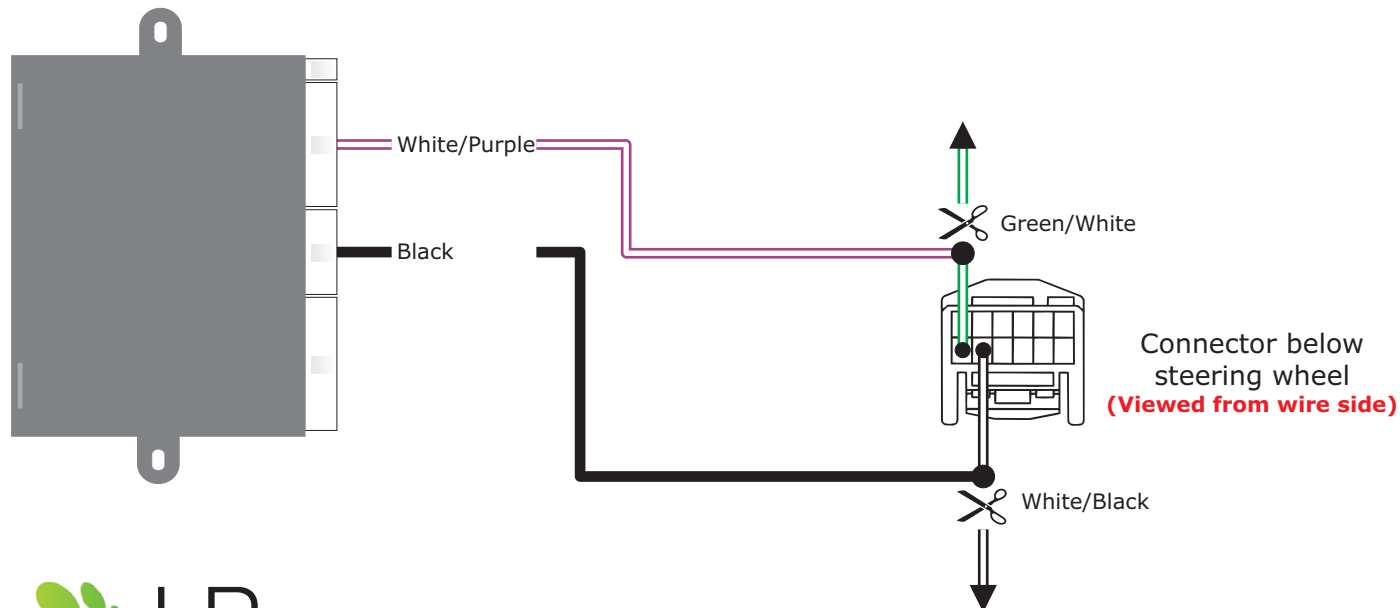

Mount the connector for the lever in place, and install the lever in the steering wheel with the two enclosed screws. Mount the connector from the lever, in the 4-pol connector for the clock spring.

Reinstall the steering wheel and reconnect the airbag.

Mount the new cover around the lever. (Alternatively, use the drill template).

45186-58020-C0 **Cover (Model 2009 - 2011)**

45186-33070-B0 **Cover (Model 2011 >)**

Cut the Green/White and White/Black, and solder the Black and White/Purple wires from the E-Cruise as showed on the picture.

If no wires is present in the connector, insert the Black and White/Purple in the connector, in same position.

1531580 Rev. 1.5

Trouble shooting guide.

Enable Diagnostic mode:

Put ignition on the vehicle

Within 2 seconds, press and hold the ON function

Wait until test LED lights up in RED color

Release ON function

Within 5 seconds
